About Community Medical Center Healthcare System

Community Medical Center (CMC) brings quality medical care to Northeastern Pennsylvania with a 299-bed full-service hospital, an accredited regional trauma center, family and specialty practices, outpatient facilities, long-term care, community education and more. A not-for-profit corporation located in Scranton, the facility offers a complete continuum of educational, diagnostic, therapeutic and rehabilitative services and programs.

CMC also has the region's only Neonatology Unit, and its Emergency Medicine Department is home to the Northeast Pennsylvania Trauma Center. CMC also provides complete cardiac services, including open heart surgery.
